

Danjoo Wungening - Healing Together

Yorga and Marmum Women and Men

We support women and men to reclaim their role as parents. Family and kinship is the cultural framework to build on strengths, share knowledge, and heal relationships.

Moort Family

For cultural immersion, we involve family and kinship wherever possible, facilitating deep relationships, storytelling and the passing on of cultural knowledge. Our children belong to the collective and heal within the collective.

Boodja Country

Our children are born to the land and belong to the land. We use Country as a method to ground our people, using the power of story to pass on cultural knowledge, values and principles.

Western Systems

Addressing the power imbalances that cause harm, we promote healing by elevating the voice of the Aboriginal community in decision making.
